DOZENS OF WOMEN'S AND BABIES' LIVES IMPACTED

FROM THE *director's desk*

Spring is about things new and beautiful; new life, new growth, and of course, babies! There's just something about spring that brings hope for a new beginning. But it's not always pretty upon arrival, is it? Spring is also very dirty, revealing the ugliness hidden by the snow. This is similar to the client situations at the center.

Often their lives are messy and plagued with disease and trauma. Our pregnancy center shares the love of God by offering free services only made possible by the gifts from the church and our community. I recently shared with an abortion-minded client that the Lord is her provider and will care for her and the baby she carries within. Please pray with me the fruit of the Word that went forth to her and other clients' ears will blossom.

As I look with the expectation of hope that brings new life, I ask you to keep the Chequamegon Pregnancy Center in your thoughts and prayers. Your encouragement and gifts are like fertilizer, keeping us strong and healthy. Thank you.

Build Life 2021 is the capital campaign for Breath of Life and the Chequamegon Pregnancy Center to pay off the mortgage of the new center, ensuring all funds can continue to go towards life-saving work, not to accrued interest.

Because of the generosity of our supporters, we only have \$57,347 yet to raise.

WE HAVE A MATCH!

We have a local benefactor willing to match up to \$30,000 of donations from now until July 1!

That's potentially \$60,000 and then the whole building will be paid off!

Pregnancy Tests & Ultrasounds

16 pregnancy tests and 28 ultrasounds were performed in 2021, despite moving locations and the second year of the pandemic. Plus, five babies were saved in part due to the services we offer.

There were also 51 education lessons completed and 71 visits to the center's "boutique".

STAY INVOLVED AND INFORMED

Hear from a client

"This center is amazing! They support you from the very start of your pregnancy, to having your baby, and after. It's a great resource for learning and to help afford things you might struggle affording."
